- Multi-Platform System Integration
- Analysis and Design
- Email Systems
- Fax Servers
- Virtual Private Networks
- Internet Connectivity and Security
- Email & Internet Filtering/Monitoring
- Upgrades and Performance Tuning for Computers and Networks
- Monthly/Quarterly/Yearly Preventative Maintenance Contracts
- Security
- Cabling
- Outsourcing Services
- Remote Management and Troubleshooting
- Service Contracts
- Staff Augmentation

### Network Support and Maintenance Services

All computer and network systems require preventative maintenance and repair to stay in prime operating condition. With our years of

experience in computer repair, we give you the timely, quality service your systems demand.

We provide 24-hour service, including standard and emergency repairs. Our preventative maintenance evaluation program will inspect your current system and recommend a specialized regimen for you. In addition, we offer monthly service contracts to provide you peace of mind in the event of a system breakdown. Our job is to find the perfect fit for you and your working environment.

### Certifications

Our engineers and consultants currently maintain a wide variety of industry-accepted and respected certifications, including the following:

- Microsoft Certified Trainer (MCT)
- Microsoft Certified Solution Developer (MCSD)
- Microsoft Certified Systems Engineer (MCSE, MCSE+I)
- Microsoft Certified Product Specialist (MCP)
- Microsoft Certified Database Administrator (MCDBA)
- Microsoft Certified Professional + Internet (MCP+I)
- Certified Novell Netware Engineers (CNE)
- Vinca Certified Engineer (VCE)
- And many more (CCA, CCNA, CCDA, A+, N+, INET+, CIW)
